

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning on page 13, line 25 with the following rewritten paragraph:

Once the collar 840 comes into contact with the second diameter 930, the push button 952 extends into the cylindrical body 922 such that the detent 954 is between the head 820 and the collar 840. Once the detent 954 extends between the head 820 and collar 840, lock 900 locks detent 954 in position.
